

Loop Run Barcelona 2020

The first international non-blocking PHP
Conference
March 26th-27th, Auditori AXA Barcelona

About the event

Welcome to Barcelona.
Welcome to Loop Run 2020.

We created this event by and for the PHP community willing to make their projects a bit faster and performance friendly.

We're very proud to announce its first (but not the last one) edition.

Are you ready for that?
Would you like to know what we have in mind?

About the event

Since some time ago, projects like ReactPHP, Swoole or AMPHP are changing the way PHP developers understand development.

Thanks to these projects, people minds are changing a bit, taking some external concepts like EventLoop, Promises or Non-Blocking something doable in terms of PHP.

For the very first time, we want to join them all in a unique place to create a must attend worldwide conference.

We expect around 300~400 attendees.

About the organizer

The conference is driven by Marc Morera, a conference organizer based in Barcelona, with many conferences and meetups organized during the last 8 years, like Symfony Catalunya, the Symfony Barcelona community or some other meetups.

Under the project PHP Coach, Marc organizes the conference with the purpose of joining in a single place all the acknowledge around of all these topics.

About the sponsors

What we want from a sponsor?

Part of the gains of the conference is going to be donated to open source projects, and in order to make the conference available for everyone, tickets are sold quite economic.

All expenses will be published once the conference is over.

This is why we need sponsors to be able to make this donation as big as possible. Without these projects, this conference wouldn't exist.

About the sponsors

What we offer to our sponsors?

We offer you our maximum effort to make everybody know you, so we will include and show your logo in our website and during the conference.

Apart of that, we will give you one free ticket for the conference, and a stand, where you'll be able to show the world who are you.

About the sponsors

Promise package

300 euros + VAT

- 2 free ticket
- Stickers on welcome pack
- Stickers in the common stand in the venue
- Thanks in social networks
- Logo in the website
